Photography

How does Photography relate to Buddhism?

About the Speaker :

Dr Henry Yeo graduated from NUS-Singapore in 1969 with MBBS. He started his own clinic in 1975 and has been a practicing physician since.

As an avid photographer and a Buddhist, he discovered through his works a relation between photography and dharma. The practice of each, mindfully and skillfully, could influence and inform each other.

Join us in discovering how does photography relate to 'Originality', 'Impermanence', 'Present Moment and Mindfulness' as well as 'Noble Eightfold Path' and Be Enlightened!
